Present: W Hojem, A Nicholas, N De Wet, L Johnston, T Wiggill, G Jujnovich, E Singh, B Gibbs, C Liyanage, M Drury, A McNeil

Apologies: J Hutchinson

Absent: K Hills

Minute's previous meeting: Circulated

Minutes be accepted as true and correct record- A McNeil

Seconded- C Liyanage

Correspondence in- No

Correspondence Out- No

Matters Arising:

Easement: G Jujnovich No Update

Nursery: G Jujnovich No Update

- W Hojem asked about an update on the consultant WM has engaged to Odour Management Procedure, G Jujnovich: Update section related to Odour is waiting on Auckland Council to review.
- W Hojem mentions a reduction on complaints and was wondering if G Jujnovich could do a spreadsheet on all the complaints for the past 5 Years. Suggestions: Tables showing quarterly's, bar graphs, etc.
- W Hojem asked if the bypass road is closed due to work; has it been opened again? G Jujnovich states that the road is only closed at the start of each day when work is being undertaken and opened at the end of each day when works are completed.
- B Gibbs mentions that he would like to know the timelines for the Landfill closure.
- B Gibbs mentions if the gorse on Richards Road can be sprayed again, appears that it has been done but needs to be completed again.

Complaints Register:

- W Hojem- 28 complaints with one that had an odour intensity of 2.
- L Johnston referred to a complaint around Christmas time, she gives feedback mentioning that the person that dealt with the complaint was very helpful. L Johnston was questioning why this complaint was not on the complaint register. G Jujnovich informs L Johnston that the complaint register is an external complaint register (Outside of the notional boundary)
- N De Wit wants to know how the odour investigations are being done. What are the procedures?
- G Jujnovich confirms procedures that are followed. Respond to the complainants address first, patrols at any other roadways that are connected, Internal perimeter check of the landfill, review of suppression equipment and performance etc.
- L Johnston raises concerns about the school, could we be proactive to try and help.
- G Jujnovich mentions a that WM works on a 14-day forecast on wind directions and patterns, WM maps out the odour devices. G Jujnovich suggests that he could share a visual display in the next meeting.
- L Johnston again just wants to raise concerns about the odour at the school. Could WM contact the school on a weekly basis to see how things are going.

Operation Reports:

- G Jujnovich reports that WM has done a daily pamphlet drop at the weighbridge to inform drivers of 60Km Speed Zone.
- Operations have been low the past weeks due to the holidays and Chinese New Year, volumes will start increasing.
- General waste has been consistent.
- Truck movement averaging around 220 per day.
- No changes to Managed fill.
- Added a fifth hired odour cannon to the for operation on the western side of the Landfill. This unit will double for dust and odour suppression.
- On habitat NZ, a second disbursement unit for the Bird Suppression. With the weather patterns changing we are having to move the device around. Unit works on the larger birds but no effect on the smaller birds.
- Operating of the new top pad since beginning of Feb. Based on expected fill rate we will remain pushing southeast until approx. Sept 2023
- B Gibbs asks how long is WM going to be taking out of stockpile 4 this year? G Jujnovich confirms that the construction season should run through until June.
- No report on rainfall.
- W Hojem mentions the 2nd Benevap Consent, G Jujnovich confirmed that WM hasn't lodged an application as still consulting Iwi.
- Proactive Monitoring, report discussed and to be sent out for feedback.

General Business:

- W Hojem suggests that with the next meeting be held at 18:00, Horseshoe Bush Road be invited for a site visit.
- McNeil requested that there be Maori Representation at the meetings. G Jujnovich mentions that he does extend an invite however will contact them direct in attempt to get Iwi representation.
- W Hojem suggests that the invite goes on record.

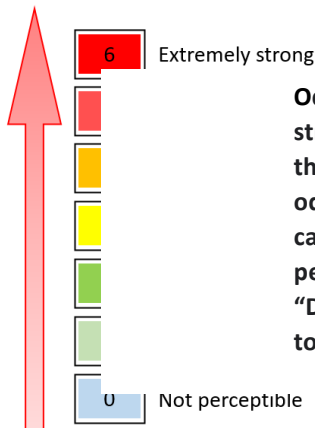

- Dates for 2024: 13 May
12 Aug
11 Nov

Meeting Closed: 19:35.

Odour Intensity

Odour Intensity: The perceived strength of an odour above its threshold. It is determined by an odour panel and is described in categories that progress from “Not perceptible”; “Very Weak”; “Weak”; “Distinct”, “Strong”, “Very Strong”, to “Extremely Strong”.

Frequency Scale

Odour frequency: The perceived duration or time or exposure experienced.
